IAAP AUDIT

# Accessibility Audit Report - IAAP Audit

REPORT NO

IAAP-P-0001-0001-RPT-01

CLIENT

IAAP Audit

PROJECT

IAAP Audit

DATE

24 Jun 2026

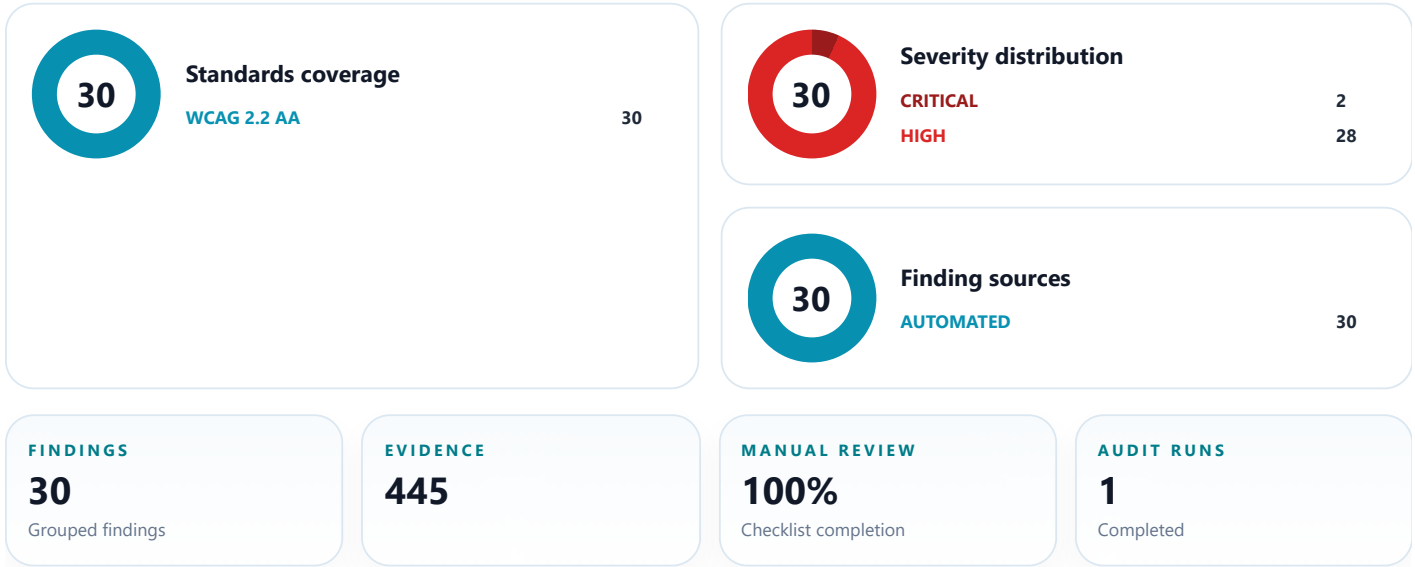

# Report contents

The page numbers below are fixed for the main report sections. Finding detail pages continue after the disclaimer.

<b>Cover</b> Report title, number, client, and generation date	<b>1</b>
<b>Index</b> Report navigation and section order	<b>2</b>
<b>Findings summary</b> Grouped finding counts, evidence volume, standards coverage, and audit readiness	<b>3</b>
<b>Executive summary</b> Conformance statement, project scope, and methodology	<b>4</b>
<b>Disclaimer</b> Usage conditions, limitations, and interpretation notes	<b>5</b>
<b>Findings and evidence</b> Issue detail cards with screenshots, affected URLs, selectors, remediation, and standards mapping	<b>6+</b>

# Audit snapshot

High-level summary of grouped findings, evidence volume, automated/manual coverage, standards mapping, and audit readiness.

# Scope and conformance

This report summarizes the accessibility audit for IAAP Audit. The audit was performed against WCAG 2.2 AA. The report includes 30 confirmed/open findings and 445 evidence records. Candidate and dismissed findings are excluded from this first report.

## Conformance statement

### DOES NOT CONFORM

Based on the tested scope and available evidence, the audited product does not currently conform to WCAG 2.2 AA. The report includes 30 confirmed/open findings, including 2 critical and 28 high severity findings.

#### Recommended next steps

- Remediate confirmed/open findings according to severity and user impact.
- Update affected pages, documents, workflows, or components in the client environment.
- Request a retest cycle after fixes are deployed.

## Scope

PROJECT	IAAP Audit
AUDIT TYPE	Website audit
STANDARDS	WCAG 2.2 AA
MOBILE TESTING	Yes
DOCUMENTS	No

## Tools and methodology

The audit combined automated testing, manual checklist review, issue confirmation, evidence review, and standards mapping. Automated findings were treated as candidates until reviewed by the auditor.

[Manual accessibility checklist](#)[Playwright Chromium](#)[axe-core](#)

# Audit limitations and usage conditions

The following conditions define how this report should be interpreted and where its audit conclusions apply.

## DISCLAIMER 1

This report is limited to the confirmed project scope, tested targets, supplied credentials, supplied documents, and available environments at the time of audit.

## DISCLAIMER 2

Findings apply only to the tested URLs, workflows, documents, components, browsers, devices, assistive technologies, and standards listed in this report.

## DISCLAIMER 3

Automated testing results were reviewed as audit evidence and do not replace manual accessibility evaluation.

## DISCLAIMER 4

Any product, website, content, configuration, design, dependency, or environment change after report generation is outside this report unless separately retested.

## DISCLAIMER 5

Retest results are reported separately unless this report snapshot explicitly includes a completed retest cycle.

## DISCLAIMER 6

This report is an accessibility audit opinion for the tested scope and is not a product-wide certification unless explicitly stated in a signed engagement document.

# Buttons must have discernible text

Ensure buttons have discernible text
